Insect Killer	Shoe Shining Machine

Floor Cleaning & Waste Management

Scrubber Driers	Housekeeping Tools
Sweeper Machines	Cart & Trolleys
Vacuum Cleaners	Caution Signage
Jet Pressure Washer	Dust Bins

POWERFUL AIR CURTAIN

Hygienic & Energy-Efficient Solutions

CENTRIFUGAL AIR CURTAIN

Enhance Comfort & Energy Efficiency

Hyginest air curtains create an invisible barrier of high-velocity air, preventing the entry of dust, insects, and outdoor pollutants while maintaining indoor temperature. Designed for commercial, industrial, and retail environments, our air curtains improve hygiene and reduce energy consumption.

Key Features:

High-Performance Airflow

Ensures effective separation of indoor and outdoor environments.

Energy Savings

Minimizes air conditioning loss, reducing heating and cooling costs.

Enhanced Hygiene

Blocks dust, pollutants, and insects from entering.

Low Noise Operation

Engineered for quiet performance without disruption.

Sleek & Durable Design

Available in modern aesthetics with robust construction.

Easy Installation & Maintenance

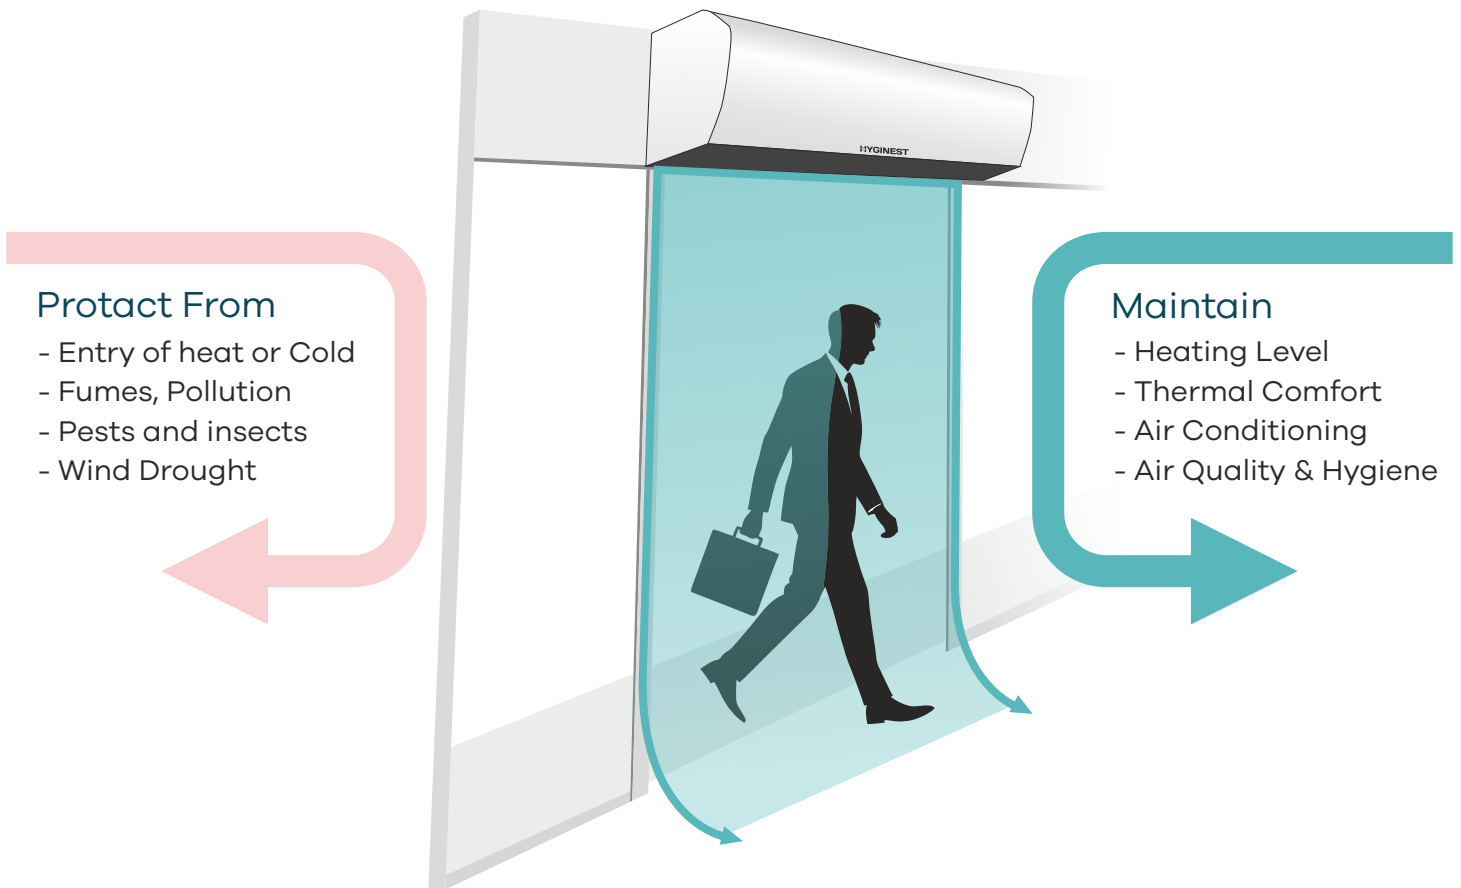

Designed for seamless integration with various entrances.

HYGINEST

SLEEK & LOW NOISE AIR CURTAIN

Powerful Performance • Sleek Design • Ultra-Low Noise

Hyginest air curtains are engineered to deliver **exceptional performance, modern aesthetics, and whisper-quiet operation**. Designed for commercial and industrial applications, they create an invisible air barrier that effectively prevents dust, insects, and pollutants while maintaining indoor temperature efficiency.

HIGH-PERFORMANCE FLY KILLER MACHINE

Model: HFCM101

Enhance Comfort & Energy Efficiency

Our high-performance Fly Catcher offers a reliable and hygienic solution for controlling flying insects in sensitive environments such as commercial kitchens, hospitals, food processing units, and institutional spaces.

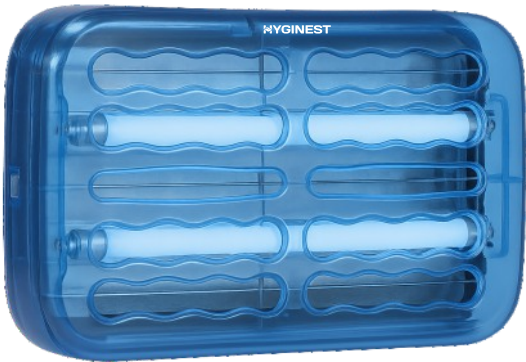

Size	25" (L) X 7" (D) X 18" (H)
Tube	18W Actinic BL UVA Lamp (Philips/OSRAM)
Choke/ Driver	20 W Electronics UV Choke (For Individual Tubes)
Electrical Rating	230 V / 50Hz
Transformer Voltage	2.4Kv
Output Catch Specification	One Catchment Tray
Weight	4.5Kg. Approx
Technology	Ultra Violet Based Attraction
Effectiveness	Based Upon Light Intensity (Approx 300-400Sqft)
Mounting Position	Free Style / Wall Mounted / Hanging Type
Other Specifications	Aluminum Wire Grid With Teflon Separators
Glass Fuse For Safety	Illuminated Rocker Switch For ON/ OFF / ISI Powder Cord

PVC STRIP CURTAINS

Flexistrip

PVC Strip Curtains are an ideal solution for controlling temperature, reducing dust and noise, and maintaining hygiene in various commercial and industrial spaces. Designed for high performance and durability, these flexible curtains offer an economical way to divide spaces without compromising accessibility or visibility.

FOOD GRADE PVC STRIP CURTAIN

Efficient • Durable • Hygienic

PVC Strip Curtains are an ideal solution for controlling temperature, reducing dust and noise, and maintaining hygiene in various commercial and industrial spaces. Designed for high performance and durability, these flexible curtains offer an economical way to divide spaces without compromising accessibility or visibility.

Key Features:

Temperature Control

Maintains ambient conditions in cold storage, clean rooms, and production areas.

Energy Efficient

Minimizes energy loss by reducing air exchange.

Transparent Visibility

Ensures safety and clear visibility through partitions.

Durable & Flexible

High-grade PVC designed to withstand heavy traffic and harsh conditions.

Custom Sizes

Available in various widths and thicknesses to suit every requirement.

Easy Installation & Maintenance

Modular strips for hassle-free replacement and cleaning.

HYGINEST

INDUSTRIAL PVC STRIP CURTAIN

CLEAR BLUE PVC STRIP CURTAIN

Clear visibility ensures safe movement and allows natural light to pass through, making these strip curtains ideal for areas with frequent human or vehicle traffic.

The subtle blue tint enhances cleanliness and is UVC stabilized, making them perfect for industrial, commercial, and food processing spaces. Durable, flexible, and low-maintenance, they are suitable for clean rooms, warehouses, kitchens, and retail entrances - ensuring hygiene without compromising accessibility.

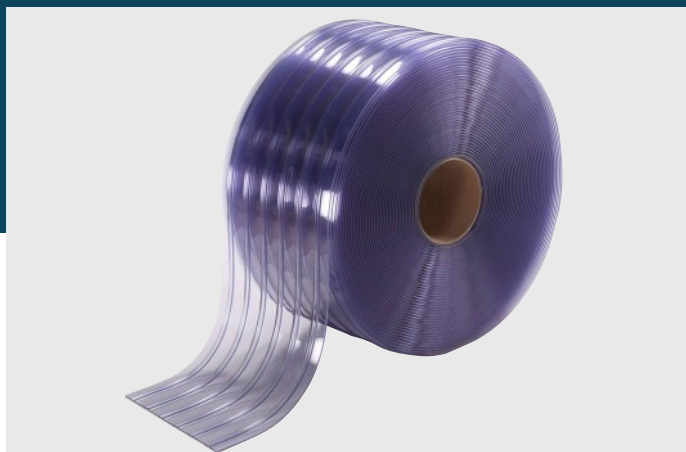

ANTI INSECTS PVC STRIP CURTAIN

Anti-insect PVC strip curtains are specially designed to repel insects by filtering out UV light, which attracts pests. Ideal for food processing units, kitchens, warehouses, and retail areas, these curtains help maintain hygiene and prevent contamination. The vibrant yellow color acts as a visual barrier while allowing light transmission and visibility. Durable, flexible, and easy to clean, they also help control dust, airflow, and temperature - making them a reliable solution for pest control and environmental separation.

Model	Strip Width	Thickness	Roll Size
Clear Blue	200mm & 300mm	2 mm - 5mm	50mtr
Anti Insects	200mm & 300mm	2 mm & 3mm	50mtr

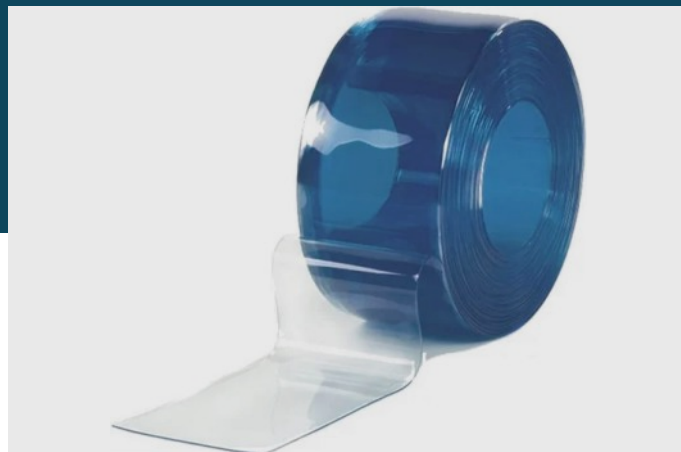

HYGINEST

INDUSTRIAL PVC STRIP CURTAIN

DOUBLE RIBBED PVC STRIP CURTAIN

Double Ribbed PVC strip curtains are perfect for high-traffic areas with frequent vehicle movement, such as loading and unloading docks. Their ribbed surface resists scratches and impact, enhancing durability and extending lifespan. These curtains ensure clear visibility, smooth passage, and effective separation of work zones. They also help control dust, noise, and temperature, making them ideal for demanding industrial and commercial environments that require reliable and long-lasting solutions.

FREEZER / POLAR PVC STRIP CURTAIN

Freezer / Polar PVC strip curtains are specially engineered to perform in extremely low-temperature environments, such as cold storage rooms, walk-in freezers, and refrigerated warehouses. It help maintain consistent internal temperatures by minimizing cold air loss and reducing energy costs. They also act as a barrier against moisture, frost, and contaminants, while allowing safe and easy passage for personnel and equipment. This strip curtains offer excellent durability, visibility, and thermal insulation.

Model	Strip Width	Thickness	Roll Size
Double Ribbed	200mm & 300mm	3 mm & 5mm	50mtr
Freezer / Polar	200mm & 300mm	2 mm & 3mm	50mtr

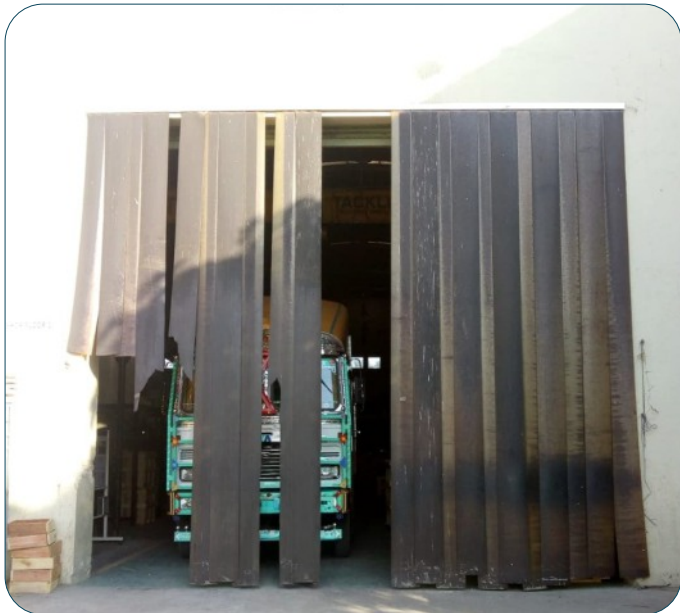

PVC STRIP CURTAIN

Choose Hyginest for a smarter investment
because when it comes to hygiene, quality should never be compromised.

Low-quality PVC strip curtains may seem cost-effective, but they turn yellow quickly and wear out, leading to frequent replacements and higher long-term costs.

Hyginest offers premium-grade PVC strip curtains that are crystal clear, highly durable, and designed to withstand daily wear and tear. Unlike low-quality options, our curtains are long-lasting, maintaining a clean and professional appearance over time. Ideal for industrial, commercial, and cleanroom environments, they enhance hygiene, improve safety, and support energy efficiency—making them a smart, long-term investment for any facility.

With professional installation and tailored sizing, Hyginest curtains offer long-term value and performance.

Examples shows how **low-quality plasticizer-based PVC strip curtains tend to turn yellow in a short period of time**, compromising both appearance and hygiene standards.
